

## ESTEVE opens new corporate headquarters

*Barcelona, 22 June 2018.*- As [announced in September](#) 2017, ESTEVE has moved the 400+ people who so far worked at company sites scattered across Barcelona to the new corporate headquarters located at the Zona Franca.

ESTEVE occupies 10 of the 13 stories of the Esteve Tower, a building that is part of the new business area of Barcelona where Iberdrola Inmobiliaria promotes 4 buildings: Torre Auditori, Torre Esteve, Torre Ponent, and Torre Llevant.

This move fulfills the long-sought-after goal of centralizing all work centers in a single site. One of the requirements for this move was selling the historic corporate headquarters at the quarter of Guinardó (Barcelona), a transaction that was finally part of the same global agreement reached with Iberdrola.

Team concentration at a single work center will help accelerate digitization, promote more aligned, collaborative, cross-cutting work, and encourage innovation.

The new building provides a structure that combines bright and open spaces with excellent finishing details. In addition, the Esteve Tower has a Class A Energy Performance Certificate and a "Very good" BREEAM rating, and stands out for its functionality, sustainability and energy savings, thus making this office complex a unique and sustainable business center in Barcelona.
